## Intelligent Lighting System

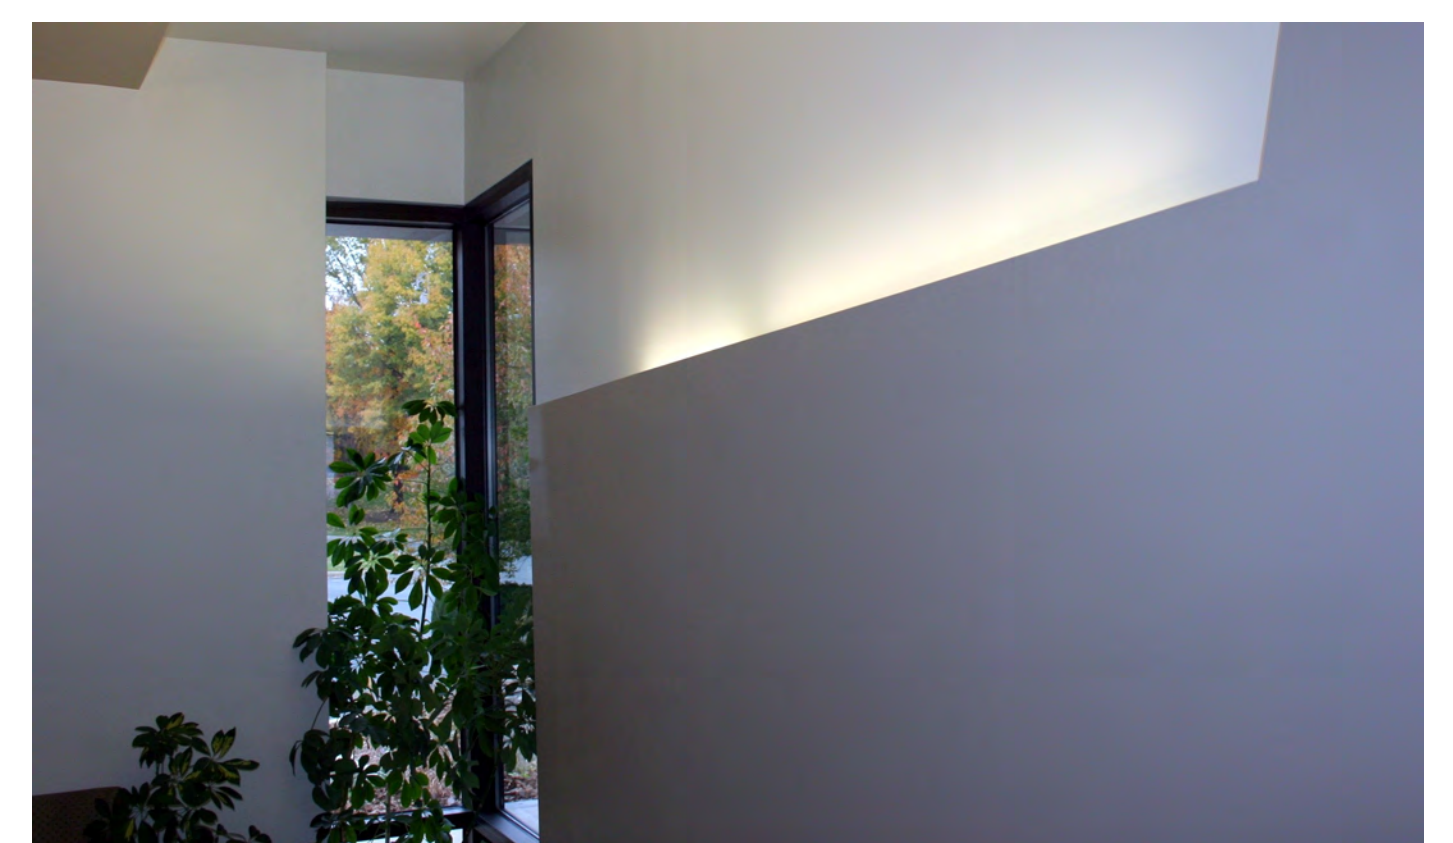

([www.sensorswitch.com/nlight.aspx](http://www.sensorswitch.com/nlight.aspx))

### Advantages of nLight System:

- Lower overall equipment costs and maintenance
- Simple Installation
- Flexible architecture makes future expansions plug and play
- Maximizes the operational energy efficiency of a building's lighting system
- Ability to easily change lighting status in order to implement load shedding or safety overrides
- Eliminates need for compromises between occupant and energy savings
- Enables remote system upgrades

Light/Sound/Movement Sensors

Vendor: nLight by Sensor Switch
